

Managing Cash Flow seminar is March 29

Managing cash flow is a very pertinent topic for local businesses in the present economy. Many businesses have found it challenging and yet, so important to future success of their business.

Business owners are invited to a seminar - Managing Your Cashflow - which will be presented by the Cass County Economic Development Corporation (EDC) in partnership with the Pine River Chamber of Commerce.

The seminar will be held from 6-9 p.m. on Monday, March 29, at the Pine River Chamber of Commerce office. It will be presented by the EDC.

This seminar is for existing businesses interested in better maximizing their revenue in tough times.

Participants are asked to bring two years of financial statements and a calculator so we can assist in exploring ways to better maximize revenues and minimize expenses.

Business information will be held in confidence, as the goal of the seminar is to help the owners analyze and determine internal options.

There is no cost for the seminar, due to a grant from USDA, however, registration is required.

To register, please call the Cass County Economic

Development Corporation at (218) 947-7523.
