Like

The Cass County Economic Development Corporation has new, shorter workshops for the winter.

The lab is open Monday through Thursday from 2 to 7 p.m. daily. The workshops are offered to get new users over to the Central Lakes College Outreach Site in Pine River.

Have fun, get to know new software and learn useful tips by signing up for one of the following workshops available through January: "Excel worksheets and formatting," "Creating newsletters and brochures," "Writing a resume," "Microsoft Outlook," "Saving/scanning photos" and "Creating a mail merge database."

All are new workshops. Each class is one to two hours long.

Call for specific times and to reserve a spot for the free workshops at (218) 947-7523 or (218) 587-2474. There is a limit of five people per workshop since there are only five new computers.

Central Lakes College students are invited to use the computer lab for Internet based classes. Check www.clcmn.edu/ for their class listing.

The computer lab and training is courtesy of a grant to the Cass County EDC from the TDF Foundation in Washington, D.C. The Cass County EDC is a community nonprofit corporation with the mission to "Improve the business environment of Cass County by encouraging a strong, diverse and sustainable economy and to build better relationships between business, government agencies and local communities."
